DOE/EIA-0218(84/46) Dist. Category UC-98 **Weekly Coal Energy Information Administration** Washington, D.C. Production Production for Week Ended: November 17, 1984 Published: November 26, 1984

Highlights

Production of bituminous coal and lignite in the week ended November 17, 1984, as estimated by the Energy Information Administration, was 15,153,000 short tons. This was a decrease of 854,000 short tons or 5.3 percent from production in the previous week. Production in the corresponding week of 1983 16,996,000 short Bituminous coal and lignite production from January 1 through November 17, 1984 totaled 798,983,000 short tons, 15.2 percent above production in the same period of 1983.

Production of Pennsylvania thracite in the week ended November 1984, as estimated by the Energy Information Administration, was 87,000 short tons, 5,000 short tons or 5.4 percent less production in the previous week. Production in the corresponding week of 1983 was 102,000 short tons. Anthracite production from January 1 through November 17, 1984 totaled 3,564,000 short tons, 1.1 percent below production in the same period in 1983.
